HONORARY DEGREE

Doctor of Laws

EMDUND S. MUSKIE. . . . United States Senator, Maine
United States Senate

The political life of Senator Edmund S. Muskie began in 1946 when he was elected to the State House of Representatives in his native state of Maine. After serving three terms in the legislature, he became Maine's first Democratic Governor in twenty years. During two terms as Governor he brought to a state long accustomed to the monopoly of one party the disquieting ferment of bold alternatives, developing a "new politics" long before that notion became a popular national demand. Then having served his State with the distinction that typifies his open approach to public life, he was elected to the United States Senate in 1958, the first popularly elected Democratic Senator in the history of Maine. Once in Washington, he broadened his perspectives to include such national concerns as public works, conservation, banking and currency, government operations and the problems of the aged.

Hence it was no accident that led the Democratic Party to select him as its candidate for Vice-President in 1968. Americans in every state, in every walk of life, quickly perceived what the citizens of Maine and his colleagues in Washington had known for years: that here was a man who embodied all the qualities Americans expect of their public servants: honesty, compassion, intelligence and the courage to present the fresh viewpoints needed to keep our world free and productive.

Therefore, Reverend President, in recognition of his contributions to the commonwealth as a public servant; in appreciation of his proven qualities of leadership and his courage as a man; and in the assurance of his continued devotion to the cause of justice, peace and freedom — on behalf of the faculties of John Carroll University, I recommend that the degree of Doctor of Laws be conferred *honoris causa* on Senator Edmund S. Muskie.

THE GRADUATES' PLEDGE OF LOYALTY AND SERVICE

Administered by

VERY REVEREND JOSEPH O. SCHELL, S.J., S.T.L., M.A.
President of the University

During your years of study, this university has endeavored to inspire you with a love of truth in religion, in morality, and in science.

The degrees that you have received today admit you into that select company of men and women of all centuries and of all countries who have enjoyed the privilege of academic training, and who bear before the world the duties and responsibilities which scholarship and culture entail.

From the groves of Athens, from the medieval universities of Bologna, Paris, Salamanca, and Oxford, from our modern institutions of learning, your predecessors have gone forth, marked by culture, zealous for the spread of truth, trained for leadership.

The faculty of John Carroll University are met here to welcome you to the companionship of learned men and women.

The John Carroll Alumni Association, moreover, extends to you today a warm and friendly welcome to its ranks. It is to be hoped that your active membership in that organization will keep you closely associated with the university in the years that lie ahead.

In the name of the university I charge you to be true to the principles you have learned, and in particular to that supreme principle under which you have been trained:

ALL TO THE GREATER GLORY OF GOD

In this hour it is right that you should declare your purpose in life and repeat after me this solemn pledge:

I solemnly pledge myself:

TO BE FAITHFUL TO MY ALMA MATER UNTIL DEATH
TO SERVE GOD AND MY FELLOW MAN
TO KEEP MY HONOR UNTARNISHED
TO BE LOYAL TO MY COUNTRY AND TO MY FLAG
TO HOLD THIS DEGREE AS A SACRED TRUST

May the Lord direct you in all your works and further you by His help and grace that all your actions may begin, continue, and end in Him to the greater glory of His Holy Name.

We pray Thee, O almighty and eternal God, who through Jesus Christ hast revealed Thy glory to all nations, to preserve the works of Thy mercy; that Thy church, being spread through the whole world, may continue, with unchanging faith, in the confession of Thy name.

We pray Thee, O God of might, wisdom, and justice, through whom authority is rightly administered, laws are enacted, and judgment decreed, assist, with Thy Holy Spirit of counsel and fortitude, the President of these United States, that his administration may be conducted in righteousness, and be eminently useful to Thy people over whom he presides, by encouraging due respect for virtue and religion; by a faithful execution of the laws in justice and mercy; and by restraining vice and immorality. Let the light of Thy divine wisdom direct the deliberations of the Congress, and shine forth in all the proceedings and laws framed for our rule and government; so that they may tend to the preservation of peace, the promotion of national happiness, the increase of industry, sobriety, and useful knowledge, and may perpetuate to us the blessings of equal liberty.

We pray for his Excellency, the Governor of this State, for the members of the Assembly, for all judges, magistrates, and other officers who are appointed to guard our political welfare; that they may be enabled, by Thy powerful protection, to discharge the duties of their respective stations with honesty and ability.

We recommend likewise to Thy unbounded mercy all our brethren and fellow-citizens, throughout the United States, that they may be blessed in the knowledge, and sanctified in the observance of Thy most holy law; that they may be preserved in union and in that peace which the world cannot give; and, after enjoying the blessings of this life, be admitted to those which are eternal.

Abridged from a prayer composed by Archbishop Carroll, A.D. 1800,
for the United States of America.

The custom of wearing academic gowns, caps, and hoods dates back to about the twelfth century and probably had its inception in France, where the wearing of the cap and gown marked the formal admission of the licentiate to the body of masters. The cold buildings of medieval times in which the masters were obliged to teach required capes and hoods which naturally were patterned after the prevailing dress of the times. Since a large number of the scholars were clerics, the robes resembled more the appearance of the monk's dress. The hoods were fashioned after the monk's cowl and were attached to the gown so that they might be drawn over the head. Later, when the hood was displaced by the skull cap as a head covering, it was made separately from the gown. The skull cap evolved into a pointed cap which is evidenced today in the mortar board with its tassel.

With such a development it is natural that there would be a great variety of styles and usages. In order to have uniformity, an Intercollegiate Code of Academic Costumes has been adopted by practically all the leading institutions of learning, with the result that today the gowns and hoods of this country are a badge of learning symbolic of the degree attained.

This code calls for three types of gowns: the bachelor's, master's, and doctor's. The bachelor's gown is made with an open or closed front and has long pointed sleeves. The master's gown is an open-front garment with extremely long closed sleeves, the arms protruding through a slit at the elbow. The ends of the sleeves are square and are further characterized by an arc appearing near the bottom. The doctor's gown is also an open-front garment, but the sleeves are bell-shaped and the length of the arm. There are wide, black velvet panels or facings down the front with three velvet bars upon each sleeve. The velvet may be the color of the degree instead of black.

While the types of gowns evolved are considered to be an improvement on other styles, it is in the hood that the American character is personified. Simple yet beautiful, each degree — bachelor's, master's, doctor's — is represented by a distinct shape or form. The bachelor's hood is the smallest of the three, the velvet edging is narrower, and less of the lining is exposed. The master's hood is the same length as the doctor's, the velvet edging is somewhat wider than that of the bachelor's, and more of the lining can be seen.

The doctor's hood is easily recognizable by the width of the velvet edging, the wide panels at either side, and the full exposure of the lining.

The lining of the hood indicates the colors of the institution conferring the degree, and the color of the velvet trimmings shows the kind of degree.
