EDITORIAL POLICY

The Ohio Journal of Economics and Politics is a scholarly journal directed to a broad audience of economist and political scientists. It is sponsored by the Ohio Association of Economists and Political Scientists, but is open to contributions from non-members as well as from members of the Ohio Association. It has a particular interest in the publication of articles dealing with Ohio and with the region, but it is a general journal. No Particular method or approach is favored.

INSTRUCTIONS FOR THE SUBMISSION OF MANUSCRIPTS

Four copies of the manuscript should be submitted to the appropriate Editor. Clear photo copies are acceptable. The manuscript should be clean copy and typed double-spaced. Materials oriented on computer wordprocessing systems are acceptable.

The names(s), affiliation(s), and address(es) of the author(s), title of the paper, and other identifying statements should be on a separate page. This page will be removed before sending the manuscript to the referees. The first page of the paper should contain the title and text, but no reference to the author(s) that would allow the referees to identify the author(s) or affiliation(s).

As a general rule, the paper should be no longer than thirty pages. Under special circumstances, substantially longer papers may be considered for publication in more than one part. Short notes of two or three pages are encouraged.

Mathematical notation, figures, and tables should be held to the minimum required for the presentation of the material. Authors with papers accepted for publication will be asked to supply camera-ready copy of all figures and maps.

Notes and references should be on separate pages rather than in the text. Consult this issue of the Ohio Journal of Economics and Politics for the style used in attribution of references.

TABLE OF CONTENTS

	Page
