students and administration were invited to quad. Members of the team, parents, students, and faculty were shown the new boat and named it in honor of the late Michael J. Lavelle, SJ., president of John Carroll University, for his support in the purchase of the boat and his dedication to our community.

The dedication ceremony was followed by a Valentine’s Day raffle to raise money. "We pay semester dues of $70 to the university, alumni, faculty, and students were recognized as a great regional asset to the university, alumni, faculty, and students," said Laryn Butler, director of alumni relations. "I am sure of student satisfaction," said John Gladstone, president of John Carroll University.

The purchase of the boat was a result of the team’s hard work and determination. "It was neat being surrounded by so many people who believe in our program," said Merita Antonishak, coach of the team. "The girls showed up for the ceremony and were very happy."}

The "America’s Best Colleges" guide from US News World Report ranked John Carroll University among the best in the nation, with a score of 86.2, which is the percent of freshmen who are recognized as a great regional asset to the university, alumni, faculty, and students. "We take for granted that there will be no more "no shows,"" said Neil Messner, coach of the team. "I’m happy."

**Mellen secured with $1 million grant**

Amy Komer

The School of Business recently received a $1 million grant, the latest in a string of generous donations received by John Carroll University. The grant was secured by Dr. James Mellen, the School’s director of nonprofit administration.

The grant was awarded through the Urban and Economic Development Program of the Federal Home Loan Bank of Chicago, an organization that provides affordable housing and economic development loans to nonprofit organizations. The grant will be used to support the School of Business’ Nonprofit Leadership Program, which prepares students for careers in the nonprofit sector.

**Big Bro/Sis program gets mixed reviews**

Joe Hyland

Staff Writer

After a year of favorable feedback, the Student Union has re-launched its popular Big Bro/Sis program.

The program, which matches freshmen with upperclassmen mentors, aims to provide support and guidance to new students. However, some students have expressed mixed feelings about the program’s effectiveness.

**Raj Aggarwal awarded faculty honor**

Shannon Sullivan

After teaching Economic and Financial Management at John Carroll, Raj Aggarwal received the Distinguished Faculty Award. Aggarwal is known for his engaging teaching style and dedication to his students.

**NEWS BRIEFS**

More than 500 students registered for this semester's seminar offered by the College of Nursing, which will cover topics such as nutrition, stress management, and mental health.

In other news, the university announced a new partnership with the Cleveland Clinic to offer advanced degrees in healthcare administration.

Mellen chair secured with $1 million grant

Amy Konner

The School of Business recently announced a $1 million grant from the Mellen Foundation of Carroll's School of Business, headed by Amy Carroll. The school and the Mellen Foundation have been working together for several years to improve undergraduate business education and student success. The grant will support various initiatives, including scholarships, mentorship programs, and faculty development.

“With the support of the Mellen Foundation, we are able to provide opportunities for our students and faculty that will help them achieve their goals,” said Amy Carroll, President of Carroll's School of Business. “This investment in our programs will enable us to attract the best students and faculty, and to continue to innovate and improve our educational offerings.”

The School of Business has had a strong track record of success in preparing students for careers in business. The grant will help to support these efforts and ensure that Carroll students continue to be competitive in the job market.

“Carroll is thrilled to receive this generous gift from the Mellen Foundation,” said Danielle Johnson, Dean of Carroll's School of Business. “We are committed to providing a high-quality education to our students and this grant will help us to continue to do so.”

Senator Packwood's actions uncover America's gullibility

Brian Chabas
Weekend Reporter

Washington, D.C.

President Bill Clinton on Thursday, after last week's announcement of eight nuclear tests in the South Pacific, ordered the Nuclear Non-Proliferation Treaty to be negotiations next month.

According to the U.S. government, the treaty, which is to be negotiated in the upcoming round of talks, is to be intended to prevent the proliferation of nuclear weapons.

The treaty was issued in the wake of last week's test, which was carried out by the United States.

The treaty was signed by 177 nations in 1968 and is currently in force.

The treaty covers all aspects of the nuclear weapon issue, including the testing, production, and use of nuclear weapons.

The treaty requires that all nations sign and ratify it, and that they follow the rules set by the treaty.

The treaty also requires that all nations immediately stop the development and testing of nuclear weapons.

The treaty was issued last week in the wake of the United States' test.

Commentary

About time. Senator Packwood has publicly been
offering to resign for months. It would only be expected
that he resign before the Ethics Committee of the Senate
records his name in history for these decades of years
with this particular impeachment case.

There is a lot of talk about resignation. But the Senate
may feel that further public humiliation of Packwood
is not necessary. After all, he will have to stand for
reelection, form the Republican Network for another
Senate seat.

Tests bombs in concert with
Environmentalists protest French nuclear testing

Brian Chandler
Staff Writer
French President Jacques Chirac to fire the first in a se-
quence of events that include a US-French 'peace
flotilla' to the Mururoa and Fangataufa atolls in the Tu-
环au. As it stands, that is the UN's 96th consecutive test.
Indeed, there was also much protest by the interna-
tional community against testing. In Papeete, a large group
of activists, including a large number of students, had to be
called in to suppress an antinuclear protest at the
capital. Of much protest by the international com-
munity was the threat to peace with the threat to peace.

The nuclear test comes at a time when the French
tests are the latest in a series of tests that include the
test of American nuclear weapons in Australia and the
national nuclear test in Australia.

Senator Packwood's actions uncover America's gullibility

Anne Colley
March 14, 1995, USA Today

Although America originally planned a series of eight tests, it
now sounds that France will do fewer detonations than previ-
ously scheduled.

If the tests are not stopped by the international community,
France may conduct testing as an act of appeasement. In
New Zealand, they have also expressed grievances with
France's nuclear testing. The United States has made a
determination to conduct nuclear testing in the South
Paciﬁc. If the tests are not stopped, the United States may
conduct nuclear testing in the South Paciﬁc.

New English professor brings his Latin American expertise

Morganne Zielinski

As an assistant professor of English, Margaret Carroll teaches a course on Latin American literature. Margaret is originally from Philadelphia, Pennsylvania and has a background in Spanish studies. She is a graduate of Tufts University, where she received her bachelor's degree in Latin American literature. Margaret has a particular interest in Latin American literature and is eager to share her knowledge with her students.

Margaret's courses include American Literature, Latin American Literature, and American Composition. In her classes, Margaret encourages students to think critically and to develop their own interpretations of the texts.

Margaret's passion for Latin American literature stems from her own experiences in the region. She has traveled extensively in Latin America, and she is fluent in Spanish. Margaret believes that understanding Latin American culture is essential for a comprehensive understanding of literature.

In her teaching, Margaret draws on her extensive knowledge of Latin American literature and culture. She incorporates a variety of texts into her courses, ranging from classic works to contemporary literature. Margaret's classes are known for their engaging discussions and for the way she challenges students to think deeply about the texts.

Margaret's commitment to her students is evident in her dedication to her teaching. She is always available to her students, whether they need help with homework or just want to talk about their interests.

Margaret's influence on her students is profound. Her passion for Latin American literature is infectious, and she inspires her students to explore this rich and diverse literature for themselves.
New English professor brings his Latin American expertise

Margaret Zielinski

Art and Feminist theorist John Carroll University is experiencing a cultural shift. New English professor Pedro San Antonio is expanding the curriculum by introducing the university’s first Latin American literature course.

San Antonio was drawn to teaching in the past two years. Before coming to JCU, he taught English at a school in Mexico City for one year. Before going on as a teacher, he taught English at a school in Seattle, New York for one year. The school had a problems with the University of Michigan and wanted to bring in a new professor, so they approached him.

San Antonio says that he has received a great deal of help and support from his colleagues in the English Department. He has found that they are working together to create a better environment.

Pedro San Antonio wants students to experience the reality of Latin American literature and to understand the power of the language. He believes that students should have the opportunity to read and study Latin American literature in college.

ART

The Cleveland Museum of Art celebrates its 50th anniversary this year with a major retrospective of American modernist painter John Marin (1870-1953). "In the Open Air: John Marin," which runs through Jan. 26, has been described as the first major Marin exhibition in more than 40 years. The show includes more than 200 works, including paintings, drawings, and prints.

Film

The Cleveland Museum of Art continues its tribute to the 50 greatest movies of all time this month with "Brando, runs Sept. 24. Admission for each film is $4. Call 421-7950 for more information.

Music

Behind Productions and the R&B for Concert Series present Kem and Orange Haze Sept. 30 at the Ohio Expo Center. Kem is a smooth soul singer and songwriter who has been called "the new James Brown." Kem's music is a mix of classic soul, modern R&B and hip hop. His music is characterized by his soulful voice and strong emotional delivery. Kem's songs often explore themes of love, heartbreak and social issues. His music has been praised for its emotional depth and musical sophistication.

The program will be supported by a full band, featuring keyboard, guitar, bass, drums, and horns. The performance will also include a special appearance by comedian Patrice O'Neal. The show will take place in the Ballroom at the Ohio Expo Center. Tickets are available at Ticketmaster locations or online at ticketmaster.com. For more information, call 241-5555.

Carroll students hop on Tribe's coat tail

Randy Looser

I asked my friend, Andy, last year about whether a dance marathon was really exciting about the Tribe. "Sure, you've got some great music, some great food and drinks," he said. "But, this is great," he said. "It's a great way to raise money for a great cause."

Carolyn has already raised $3,000 for the American Cancer Society, and it will continue to raise money for the cause. "This is a great way to give back," she said. "It's a great way to support a great cause."

The Tribe's Dance Marathon will be held on Saturday, October 21, at 7 p.m. in the Samford Center. The event will feature a variety of musical acts, food, drinks, and a lively atmosphere. Spectators are encouraged to join in the fun by wearing their Tribe gear and showing their support for the cause.

Tickets are available for $5 in advance or $7 at the door. All proceeds will go directly to the American Cancer Society.

Don't miss out on this exciting event and make sure to hop on the Tribe's coat tail at the Dance Marathon on Saturday, October 21!
Last of the Dogmen: new dog, old tricks

Jeffrey Kesten

Staff Reporter

Kurtwood Smith) doesn't believe Savoy Pictures' Gates' story, and that adds to the mountains after their bus these recycled plots.

plots in Hollywood movies

Footnote: "The Last of the Dogmen" is a 1980 American western film directed by Richard Fleischer and starring Tom Berenger and Lewis Gates. The film is based on a novel by Richard Hugo, which tells the story of a bounty hunter named Lewis Gates who teams up with a Cheyenne warrior named Deegan to track the Dogmen, a group of indigenous people who are believed to be responsible for the theft of a sacred arrow.

Another strong point of the portrayed as protective people who were the best teams in the nation last year, come to Wasmer against the Blue Streaks as Damon Mintz is off to a hot start in the playoffs. They want to do it on their own, which means they need to make or break the season for the Blue Streaks as Damon Mintz is off to a hot start in the playoffs. The defensive backfield could be up to the occasion.

Ebing's aches end her season

Randy Lenser

Ebing, 35, had enough try-
ning to top a three-year-
old and was in the heart of an intense game against the Ohio Senior男女, who were able to hold their own in the first half, but they were outplayed and outscored in the second half.

But the Blue Streaks aren't giving up on the season. "We're not giving up," Ebing said. "We're still fighting for a spot in the NCAA championship.

The Blue Streaks (1-2) were defeated by the Ohio Senior 3-0 on Monday evening. "We didn't play our best game," Ebing said. "We were outplayed by a tough team, but we'll be back stronger next time."

The Blue Streaks will play their next game at home against the Ohio Junior on Friday night. "We're ready to get back on the court and show what we can do," Ebing said.

Women's soccer struggles with injuries

Jonathan Rase

The John Carroll University women's soccer team has struggled with injuries this season. "We've had a tough time getting healthy," Head Coach Tony DeCarlos said.

"We've had a lot of injuries to deal with this year," DeCarlos said. "We've had to rely on our younger players to fill in the gaps.

"We've been able to keep our lineup pretty consistent," DeCarlos said. "We've had a few injuries, but we've been able to bring in some new players to help us out.

"We're trying our best to stay healthy," DeCarlos said. "We're looking forward to getting healthy and being able to play some more games.

Soccer shutout by Kenyon

Men fall again to top-notch regional team

Kevin Beerman

Although the John Carroll men's soccer team had high expectations going into the season, they were unable to overcome a tough region and lost to Kenyon College 1-0 on Saturday.

"We knew it was going to be a tough game," Head Coach Dan Frattare said. "We had a few chances, but we weren't able to capitalize on them.

"We'll learn from this game and use it as motivation for the future," Frattare said.

"We have a lot of talent on this team," Frattare said. "We just need to play better as a team going forward.

Despite the loss, the Blue Streaks are still on track for the NCAA tournament.

"We're not giving up on our season," Frattare said. "We still have a lot of games left and we're looking forward to the future.

"We're excited to see where we can go from here," Frattare said.

John Carroll University boasts one of the top soccer programs in the region and is looking to make a deep run in the NCAA tournament.

"We have a lot of experience on this team," Frattare said. "We're looking forward to making a run and seeing what we can do in the tournament.

"We're excited to see what the future holds," Frattare said.

"We're looking forward to the NCAA tournament and seeing what we can do," Frattare said.

Women's soccer struggles with injuries

Jonathan Rose

Sport Special Assistant

The John Carroll University women's soccer team has struggled so far this season, with a 3-6-1 record in its first 10 games. After starting the season strong with a 3-1 record, the Blue Streaks have fallen into a rut, losing five of their last six contests.

"We've been struggling with injuries," said Head Coach Matt Bennett. "We've had a lot of injuries to key players, but we're starting to get healthier now." Bennett also mentioned that the team has been working hard on improving its defense, which has been a weakness so far this season.

"Our defense has been inconsistent," Bennett said. "We need to work on improving our communication and teamwork on the field."

The Blue Streaks will look to improve their record when they take on the Ohio Northern University Polar Bears on Saturday. The game is scheduled for a 2 p.m. kickoff at the John Carroll University Alumni Field.

New Technology, Old Problems

The beginning of a new school year typically brings changes to our lives, but this year, JCU is no stranger to change. "Technological advancements" head the list of changes. About a month ago, along with their room assignments, students received information regarding the new technology being implemented this year, particularly voicemail and other telephone services. The general sense of the letter was focused on the positive availability for the Carroll community. All appeared to be moving in the right direction.

Filled with anticipation for a new and improved technological atmosphere (we won't even get into the computer labs, yet), students tried to use their new phone system. Within a few days, it became apparent that with changes in technology come chaos and disorganization.

Students were quickly discouraged when faced with the inability to leave a message on a friend's voicemail, because that person had not yet been able to activate the system. Some people, however, were faced with a far more difficult situation. For many, it was impossible for them to call long distances because of problems with Student Telephone Services, yet it was also impossible for people to call and leave them a message.

While voicemail was an excellent idea on paper, and could be a long-term benefit for JCU, students should have been given more information. For instance, several ITAs are not linked into the phone system information until the first floor meeting, which for some was not until almost a week after moving in. This, combined with SFL's long-distance problems, prevented many students from being able to contact family, friends, and students by phone. Anyone who wrote a check or made the call for the pay phones in the lanes between campus. Between can appreciate this.

Yet, there is one solution to this problem, but most students are unaware of it. According to William O'Brien, director of information services, students do have the option of making long-distance calls from the voicemail system, enabling them to use an answering machine. All they need to do for that, or any other phone problem, is to call the help line 398-4064. Who has the extra money to call a service line for a problem that should be free? Pear organization.

Event of JCU is headed in a questionable direction technologically speaking, planners should have been more prepared for the incoming problems, and should have taken better measures to inform and prepare students for the changes. Hopefully, the school will take note of this to make future changes in technology run more smoothly for all involved.

HITS & misses

The hits are chilling the division is 1:1 JCU in the student parking lot, the last time we checked, we couldn't afford to park in the van lot, m i s: Four of the ten Homecoming King/Queen nominees and Student Union executive officers... what's the problem here? M HT: Big Brother/Sister picnic, even though it rained, m i s: the oh-so-long lines in the dining halls... if smoking is not allowed inside, put some ashtrays outside. M HT: events in the dining halls, the circles have moved in 1:1. m i s: Students not showing for Cedar Point trip.

SU budget error for all

The error was that the team members must learn from our mistakes and the mistakes of others, and move on. We must especially learn from the history of mistakes, such as the one that resulted in a $1,000,000 Student Union deficit for the 94-95 fiscal year. This deficit, which, theoretically, has been corrected for the 95-96 fiscal year, was the result of some mistakes made in the Student Union's budget. Newcomer who were made on this mistake. In actuality, the deficit was the result of $1,000,000 over spending on student services, but was not discovered until after the computer's reading error was realized. What mistakes do happen, $1,000,000 is a bad mistake. The SU should be more sensitive to its auditors. According to John Cranley, Student Union president, the SU did unknowingly spend more money than the SU was willing to collect for this bookkeeping error, and for setting up a better system to minimize the possibility of this happening again.

All JCU organizations could and should learn from the SU's mistake. Mistakes cannot always be avoided, organizations should take precautions and develop a system of checks and balances in these errors that cannot be made as easily. Let this be a warning for all of us to learn, and move on from this lesson we've learned.

LETTERS TO THE EDITOR

TOGETHER

You mean someone has answers to my student loan questions?

Yes?

Cibank has all the student loan information you need now.

Cibank

For answers to your student loan questions, talk to Cibank, the student loan experts. Our customer service representatives are here to help you understand the financial aid process through your entire student loan payment. Exceptional customer service is just one reason why students have trusted Cibank with their education financing more than any other bank. To get the answers you need, call Cibank at 1-800-620-0820 and ask for Operator 602, and in the co-op below, visit your local Cibank Financial Aid office.

CIT/BA

WANTED: YOU AND YOUR photocopier... some SFL students don't have a photocopier. You can get yours for $10.75 per month, with the first year free. Must be a dependent student. For more information, call Citibank at 398-4064.

You can use the photocopier for free, but you must carry a student ID. Call Citibank for more information.

The Carroll News welcomes letters to the editor, as it is our way of knowing what you like or dislike about the issues we discuss in this newspaper. All letters are subject to editing for clarity and space. Letters must be typed or hand-written and sent to the Carroll News office, to be eligible for publication. Letters can also be submitted via email to carrollnews@jcu.edu and mailed to the Carroll News Office, John Carroll University, Cleveland, OH 44106.

New Technology, Old Problems

The beginning of a new school year typically involves significant changes, especially for those involved in student life. For some, the changes could be a long-term benefit, such as the Student Union's adoption of new technology to improve communication. For others, however, the changes might be more difficult to accept, as was the case for many students who found it challenging to make long-distance calls due to problems with the Student Telephone System.

O'Hearn, director of information services, acknowledges that there is one solution to this problem, but he also notes that many students are unaware of it. According to O'Hearn, the system was designed to enable students to connect to their own lines from the phone system, but few students seem to know about this feature.

The Carroll News also notes the importance of technological developments on campus. They point out that the use of computers has increased in recent years, and that this has led to an increase in technological challenges, such as the need to keep up with the latest software and hardware.

Discussion:

Laura Ashley visits Cleveland's First District

People do strange things in college. For instance, they often write letters to the editor with the expectation that college kids are spontaneous and carefree. The Carroll News calls this "the Normal college experience" and suggests that getting arrested and thrown in jail is "just another day in the life of a college student." However, Laura Ashley's experiences in Cleveland's First District are not typical of what one might expect from a college student.

Ashley mentions that she is taking a course in the social sciences that focuses on the role of technology in society. She notes that the technology is changing the way people communicate, and that this is having a significant effect on society. She also points out that the increase in technological developments has led to an increase in the use of computers, which has led to an increase in the number of computer-related crimes.
