*CHRIST THE MERCIFUL*

Mosaic, Constantinople, *ca.* 1125.  
Staatliche Museen, Berlin.

While one usually thinks of icons as paintings on wood, the word simply means "image." Any religious image, especially in the Eastern style, despite its dimensionality or material, is an icon. Its importance is not to be a likeness of the person represented, but a bearer of the person's presence and power.

This mosaic icon comes from the Comnenian period of Byzantine art (1081-1185), noted for its harmonious fusion and balance of the classical revival style and the more abstract style that competed during the eighth and ninth centuries. Christ's expression is aloof and inexpressive, but the inscription describes him as the one who has mercy. The absence of any facial characteristics that could connote human feeling is the Byzantine artist's way of expressing divinity. Other elements of the icon are conventional: the hieratic frontal pose, the halo with a cross that is reserved for Christ alone, the hand gesture of teaching or blessing, the richly decorated book of wisdom.

Icons feature prominently in the liturgy of the Eastern rites. The president of the University is bi-ritual, celebrating the liturgy in the rite of the Byzantine Catholic Church as well as in the Latin rite; hence, his special appreciation of icons.
