Tina sends out her love to her mom, sister, roommates, friends and everyone involved in this production. She expects nothing but would appreciate some chocolate torte.

BRANDON MONSMAN (Rev. Jeremiah Bates/crew)—Brandon can’t fill up much space with “theater experience”, but he likes the blinding view from the stage. Plus, he never imagined he would come to college and end up as a reverend. He’s pretty confused and also an English major.

She has previously traveled Northeast Ohio with the Garfield Heights Music Express Show Choir. She has been studying acting for 4 years, took courses on improvisation and acting on film. STACY MCKAY (Alison Reynolds)—Stacy began her acting career in her high school theater department in Greenville, Pennsylvania. Some of her favorite roles include Cynthia from Mouse on Mars, Sister Berthe from The Sound of Music, and Olive from Neil Simon's female version of The Odd Couple. She is a sophomore who plans to graduate with a major in Spanish and minors in Communications and Business. DAVID MANOCCHIO (Playwright / Harvey Grubb)—David is an award-winning filmmaker, writer and actor. As an actor, Manocchio has played the role of Lenny Bruce in the play Lenny. He has appeared in New York University films as well as playing the lead role in the independent film Crime Noir which he also co-wrote and directed. The video of Crime Noir will be distributed nationally this spring. Among his other films, Manocchio co-wrote and directed the film 24 frame/second which was shown on PBS-TV and has won five awards in four different countries including a CINE Award. Even before its first production, Live at 11 has already been honored with an award from the Ohio Theater Alliance playwriting competition. Manocchio has a BA degree from Cleveland State and is a graduate of the New York University's Intensive Filmmaking Program. Since 1994, he has taught acting and directing at the Cleveland Play House and teaches Filmmaking at the Cleveland Institute of Art.

**Amy Andelnor (Assistant Stage Manager)**—Amy is a junior biology major. This is her third Marigold One Acts on the stage crew, and she has also worked on various other shows here at John Carroll. Her favorite thing to eat is Coney Island’s chili cheese fries, and she thinks the world would be a much happier place if everyone had them as part of their daily diet. She is also currently taking donations for her poor college student fund, all major credit cards accepted.

**Tyler J. Donnovy (Video Production)**—Tyler is a Senior Communications major and Biology minor who is currently dedicating his last semester to help improve JCTV and gain experience in the field of video production. He has experience in linear and non-linear editing, shooting, audio tech, direction and production. “Having run with a crew on live news shows in the past makes this play all the more enjoyable to be a part of. My real interest lies in film and the filmmaking process. The Coen brothers are kings of Hollywood! A gigantic amount of thanks goes out to Daniel Jenkins, of WHHS Channel 30, and Grant Massey of Painesville for their patience and assistance with the helicopter crash scene. Your timing was impeccable and highly appreciated!”

About The Cast & Crew: The Original Last Wish

Baby

Martin Hoehler is a Senior English major. He is happy to be directing his first JCU play. His previous stage experience at John Carroll includes six roles, his favorites being Feste in Twelfth Night and Bradley in Buried Child. He'd especially like to thank his family for coming to see him in every single show he was in and even some he wasn't in. He'd also like to thank the John Carroll Theater department for four great years of drama, and all his professors for tolerating his general state of drowsiness. Future plans include sleeping, dozing, napping, snoozing and other derivations of non-wakefulness.

Jonathan Mayo loves to stage manage. Please give him a job.

Kevin Juguilon is a senior Philosophy major who is appearing for the first time on the JCU stage. He hopes one day to teach religion and/or become a knight. He wants to dedicate this show to Sharon, and hopes that she enjoys seeing him in diapers.

J. Michael Halsiko is pleased to assist Marty, the fine director, and this fine cast. He thanks his family and Annie and is happy to be a part of this fine production.

Melissa Wollenberg is a freshman at John Carroll University. She is from the West Side (the better side) of Cleveland and attended Magnificat High School. Besides theater she enjoys kick boxing, watching movies, and paint by number. She would like to dedicate her performance to her family, her friends who came all the way from other colleges to see her, and to her roommate, Megan, because she had to listen too her screeching New Jersey accent. Melissa promises never to do that accent at any more parties.

Mark Malafarina is a sophomore who didn't want to write a stupid biography. He has been involved in numerous plays such as "Music Man," "Give my Regards to Broadway," and has most recently been seen as the wife beater people loved to hate in Marinello's fall production of "Never Turned out to be four Months." Mark would like to thank his family, the cast, crew and the slave master director. You guys are the best!

Moria Nagy is a freshman enjoying her second appearance on the John Carroll stage. Originally hailing from Mendocino, California, she is enjoying her new experience in Ohio. Although she feels that mid-westerners say "pop" entirely too much, she forgives them for this downfall because they have provided her with numerous places to swing dance. Come see her in her next role as Ruth in Blithe Spirit. She would like to thank her roommate Shannon, Keith Nagy, and of course DAVE for all of their support.

MaryAnna Moore is a freshman appearing for the first time on the JCU stage. She loves Batman and someday hopes to be able to perform to the caliber of the great Adam West. Her favorite quote: "In 1840 the strait pin was invented, and since then people have gotten stuck up." Shmank you.
Television's an instrument that can
ach, can illuminate; yes, it can even
spire. But it can do so only to the
extent that humans are determined to
use it to those ends. Otherwise it is
merely wires and lights in a box."
